WINDOWS: RUN COMMANDS TO START CONTROL PANEL ITEMS

19. JUNE 2013 | ADMIN | 10 COMMENTS

Sometimes it is faster to access Control Panel items via command line than clicking and searching in the UI. To use a command, just press <Windows-Key>-R, which will open the Run window. Then just type the command and press <Enter>.

For the .cpl files, the "control" command can even be left out, so that is even less to type.

Control Panel Applet	Command	os

10 THOUGHTS ON "WINDOWS: RUN COMMANDS TO START CONTROL PANEL ITEMS"

Cata

8. MARCH 2017 AT 14:45

I'm trying to find the command line to open the screen "Add a Device".

Thanks in advance

BAS ★ Admin

9. MARCH 2017 AT 15:01

Use

control /name Microsoft.AddHardware

AndyAdmin

17. NOVEMBER 2016 AT 20:00

What "mail" in Windows 10 control panel? The command listed here (control mlcfg32.cpl) does not work.

BAS ★ Admin

18. NOVEMBER 2016 AT 09:46

As it says in the right colum, this command only works for Windows 8, 7, Vista and XP. It does not work for Windows 10.

Kenny Chu

27. OCTOBER 2016 AT 05:40

Love your blog this is very useful list of command.

Thankyou

Deanna

16. JUNE 2016 AT 19:47

appwiz.cpl also works in Windows 7 (you only have XP listed). Also the use of the word control isn't needed for .cpl items. eg: this works just as we using "appwiz.cpl" as it does using "control appwiz.cpl"

BAS ★ Admin

16. JUNE 2016 AT 21:42

Deanna

Thanks for this. In Windows 7, "Add/Remove Programs" has been renamed to "Programs and Features", appwiz.cpl is also listed there.

It is correct, "control" can be left out for the .cpl files. I have updated the text to note that. Thanks.

Noureddine

29. DECEMBER 2015 AT 19:44

Thanks for your help, how long you been doing Server and Network Administration?

Jack Brouwer

13. NOVEMBER 2015 AT 10:49

Nicely copypasted, as appears from the lacking of the footnotes, corresponding with those of http://pcsupport.about.com/od/tipstricks/a/control-panel-command-line.htm!

24. NOVEMBER 2015 AT 08:49

There are many pages listing this, and I copied it from somewhere. I do this sometimes as this blog is my private collection of technical information I personally use often, so I have everything on one place.
